Sommario/riassunto	<p>This second book, framed in the research on suicidal behavior, contains strategies of intervention and postvention, both at the level of prevention and in the face of the occurrence of an event. It is the reflective result of a work, carried out for 4 years, funded by the Catholic University Luis Amigó, and carried out in eight localities of Antioquia in face-to-face and in some countries of the region in a virtual way; where technical advice and support has been provided in order to strengthen the institutional competences of these localities with regard to suicide; the book, presents this process of action research. We hope that its content will be useful for any person or institution interested in knowing how to deal with and contain this human problem.</p> <p>Este segundo libro enmarcado en la investigación sobre el comportamiento suicida, contiene estrategias de intervención y de posvención, tanto a nivel de la prevención como ante la ocurrencia de</p>

un evento. Es el resultado reflexivo de un trabajo, ejecutado durante 4 años, financiado por la Universidad Católica Luis Amigó, y llevado a cabo en ocho localidades de Antioquia de forma presencial y en algunos países de la región de manera virtual; en donde se ha prestado asesoría y acompañamiento técnico con el propósito de fortalecer las competencias institucionales de estas localidades en lo referente al suicidio; el libro, presenta este proceso de investigación acción. Esperamos que su contenido, sea de utilidad para toda persona o institución interesados en saber cómo afrontar y contener esta problemática humana.
