Sommario/riassunto	During the first decade of the 21st century, a remarkable phenomenon swept through the former Soviet Union changing the political, social and cultural landscape. Popularly known as the 'Colour Revolutions', these non-violent protests overthrew autocratic regimes in three post-soviet republics: the Georgian Rose Revolution (2003), the Ukrainian Orange Revolution (2004) and the Kyrgyzstani Tulip Revolution (2005). This book examines the significance of these regime-change processes for the post-soviet world in particular and for global politics in the 21st century. <
