Sommario/riassunto	African American freedom is often defined in terms of emancipation and civil rights legislation, but it did not arrive with the stroke of a pen

or the rap of a gavel. No single event makes this more plain, Laurie Green argues, than the 1968 Memphis sanitation workers' strike, which culminated in the assassination of Martin Luther King Jr. Exploring the notion of ""freedom"" in postwar Memphis, Green demonstrates that the civil rights movement was battling an ongoing ""plantation mentality"" based on race, gender, and power that permeated southern culture long before--and even after--the ground

Sommario/riassunto	Secularism (al-'almaniyya) is an important yet highly divisive issue in the Arabic world. This study reconstructs, on the basis of recent Arabic

publications and illustrative case studies, the social and religious problems attached to secularism as concept. Stressing the ambivalent authority of the Muslim intellectual from a sociological point of view, Kinitz's study is an important contribution to understanding Islam in the globalized present.
