problem of clinical pain -- pt. 4. Current approaches to management of
the chemically dependent patient -- pt. 5. Clinical management of pain
in chemical dependency -- pt. 6. Aberrant drug-taking considerations

-- pt. 7. Pain and chemical dependency : the interface.

Sommario/riassunto

Both pain and addiction are tremendous public health problems. Practitioners of every stripe say that they learned precious little about pain or addiction in their training and readily admit that instruction on the interface of pain and addiction is nonexistent. The recent problem of prescription drug abuse has only served to highlight the fact that these two worlds need unification those who treat pain must be informed about the risks of controlled substances and those who treat addiction need to better and more fully understand their benefits. Nowhere is the pooled knowledge of pain management
