| Autore | Torge Wolfgang |
| Titolo | Geodesy [[electronic resource] /] / Wolfgang Torge |
| Pubbl/distr/stampa | Berlin ; ; New York, : W. de Gruyter, 2001 |
| ISBN | 3-11-087995-6 |
| Edizione | [3rd completely rev. and extended ed.] |
| Descrizione fisica | 1 online resource (432 p.) |
| Classificazione | ZI 9150 |
| Disciplina | 526/.1 |
| Soggetti | Geodesy
Geophysics |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references (p. [369]-403) and index. |
| Nota di contenuto | Front matter -- 1 Introduction -- 2 Reference Systems -- 3 The Gravity Field of the Earth -- 4 The Geodetic Earth Model -- 5 Methods of Measurement -- 6 Methods of Evaluation -- 7 Geodetic and Gravimetric Networks -- 8 Structure and Dynamics of the Earth -- References -- Index |
| Sommario/riassunto | The third edition of this well-known textbook, first published in 1980, has been completely revised in order to adequately reflect the drastic changes which occurred in the field of geodesy in the last twenty years. Reference systems are now well established by space techniques, which |

dominate positioning and gravity field determination. Terrestrial techniques still play an important role at local and regional applications, whereby remarkable progress has been made with respect to automatic data acquisition. Evaluation methods are now three-dimensional in principle, and have to take the gravity
