

1. Record Nr.	UNINA990004074100403321
Autore	Descartes, René <1596-1650>
Titolo	Il carteggio Le polemiche / René Descartes, Henricus Regius ; a cura di Roberto Bordoli
Pubbl/distr/stampa	Napoli : Cronopio, c1997
ISBN	88-85414-27-3
Descrizione fisica	403 p. ; 19 cm
Collana	Tessere ; 6
Altri autori (Persone)	Regius, Henricus
Disciplina	196
Locazione	FLFBC SDI
Collocazione	P.1 6F DESC 14 SDI-KE 689
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Contiene anche: Spiegazione della mente umana e Breve spiegazione della mente umana, di H. Regius; Note contro un certo documento, di R. Descartes

2. Record Nr.	UNINA9910782329503321
Autore	Liveson Jay Allan <1937->
Titolo	Peripheral neurology [[electronic resource]] : case studies / / Jay Allan Liveson ; illustrations by Hugh Thomas
Pubbl/distr/stampa	New York, : Oxford University Press, 2000
ISBN	0-19-770827-7 1-280-83435-8 9786610834358 0-19-803099-1
Edizione	[3rd ed.]
Descrizione fisica	1 online resource (525 p.)
Disciplina	616.8047545
Soggetti	Neurology Electrodiagnosis Nerves, Peripheral - Diseases - Diagnosis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; I. FUNDAMENTAL CONCEPTS; 1. Interpretation of Electrodiagnostic Data; 2. Diffuse Processes; 3. Localized Processes; II. CASE STUDIES; 1 Bilateral lateral hand numbness; 2 Horner's sign and medial arm numbness; 3 Radiating foot pain; 4 Crush injury of thigh; 5 Caveat doctor!; 6 Serendipity; 7 Sudden thigh pain on coumadin; 8 Radiating shoulder pain; 9 ""Split"" finger findings; 10 Facial weakness and repair; 11 Proximal weakness and diplopia; 12 Wrist drop; 13 Foot drop; 14 Leg weakness and twitching; 15 Shoulder dislocation and weakness; 16 Abnormal pinch 17 Radiating pain and knee jerk decrease 18 Gunshot wound to neck; 19 Proximal weakness and ache in sixth decade; 20 Caveat again!; 21 Wrist weakness with deviation; 22 Foot drop after arthroplasty; 23 Tunnel and more; 24 Recurrent weakness and numbness; 25 Saddle numbness; 26 Painless scapular atrophy; 27 Radiating thigh pain and numbness; 28 Calcaneal fracture and foot numbness; 29 Thumb numbness and distal weakness; 30 Progressive diplopia in a 21-year-old; 31 Asymmetric leg weakness and diabetes; 32 Rapid proximal weakness in a 10-year-old; 33 Mees' lines and distal numbness

34 Sacral growth and incontinence
35 Scapular winging increased on flexion;
36 Difficulty relaxing grip and ptosis;
37 Arm symptoms aggravated by Valsalva;
38 Cramps and fasciculations;
39 Postlaminectomy recurrence of pain;
40 Intrinsic weakness related to stapling;
41 Multiple pelvic fractures;
42 Antecubital shunt and hand weakness;
43 Weakness, dry mouth, areflexia;
44 Focal fasciculations in a physician;
45 Crutches and a wrist drop;
46 Painful eruption and weak hip;
47 Positive "dropped arm test,";
48 Scapular winging after neck tumor excision;
49 Slow progression of proximal weakness
50 Quadrilateral space lesion
51 Myokymia and fasciculations;
52 Slow evolution of proximal weakness;
53 Thoracic outlet syndrome "recurrence,";
54 Foot drop after walking;
55 Weak pinch and pronation;
56 Gluteal injection and radiating pain;
57 Clavicular fracture and weakness;
58 Abdominal pain with no abdominal pathology;
59 Diabetes with asymmetric weakness;
60 Handcuffs and numbness;
61 Shoulder pain and weakness;
62 Difficulty standing in a 30-month-old girl;
63 Hemiatrophy of the tongue;
64 Arm weakness after breech delivery;
65 Floppy 3-month-old boy;
66 Gunshot wound of leg
67 Fractured ankle bone and focal atrophy
68 Exacerbating, remitting weakness, and ataxia;
69 Arm weakness postthoracotomy;
70 Ear pain, hoarseness, and facial weakness;
71 Knee fracture with puzzling findings;
72 Difficulty relaxing grip;
73 Burn victim with flaccid quadriplegia;
74 Charlie Chaplin gait and ataxia;
75 HIV and progressing weakness;
76 Progressive arm weakness with old polio;
77 Transient dysphagia;
78 Radiating pain and Pott's disease;
79 Mixed upper and lower motor neuron problem;
80 Fracture of C₍₁₎-C₍₂₎ complications;
81 Vertebral collapse and proximal weakness
82 Proximal weakness and frequent pneumonia

Sommario/riassunto

The first edition of "Peripheral Neurology" made innovative use of case presentations as a vehicle for teaching peripheral neurology and categorized the field of peripheral neurology. This edition addresses topics first according to fundamental concepts, and then through case studies.
