

1. Record Nr.	UNISA990000772220203316
Autore	MAGI, Giorgio
Titolo	La radio e la televisione nell'organizzazione europea / Giorgio Magi ; in allegato il testo italiano dei principali atti internazionali
Pubbl/distr/stampa	Padova : CEDAM, 1990
ISBN	88-13-17042-4
Descrizione fisica	XII, 192 p ; 24 cm
Collana	Diritto e pratica nelle attività culturali, informative e ricreative ; 8
Disciplina	343.09946
Soggetti	Radiotelevisione - Legislazione comunitaria
Collocazione	XXIV.3. Coll. 23/ 5 (COLL HOB 8)
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA990004170350403321
Autore	Mitchell, Bruce
Titolo	Old english syntax / by Bruce Mitchell
Pubbl/distr/stampa	Oxford, : Oxford Clarendon Press, 1987
Edizione	[Repr. with further corrections]
Descrizione fisica	2 v. ; 24 cm
Disciplina	429.5
Locazione	FLFBC
Collocazione	429.5 MIT 1(1-2) 429.5 MIT 1(1-2) BIS
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1.: Concord, the parts of speech and the sentence 2.: Subordination, independent elements and element order

3. Record Nr.	UNINA9910299443203321
Autore	Holtmeier Friedrich-Karl
Titolo	Animals' Influence on the Landscape and Ecological Importance : Natives, Newcomers, Homecomers / / by Friedrich-Karl Holtmeier
Pubbl/distr/stampa	Dordrecht : , : Springer Netherlands : , : Imprint : Springer, , 2015
ISBN	94-017-9294-1
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (547 p.)
Disciplina	333.7 500 550 551.6
Soggetti	Ecology Physical geography Climatic changes Popular works Earth sciences Life sciences Environment, general Physical Geography Climate Change/Climate Change Impacts Popular Science, general Earth Sciences, general Life Sciences, general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1 Introduction -- 2 Animals' Functional Role in the Landscape -- 3. Selected Landscapes under the Influence of Wild Herbivorous Mammals -- 4 Keystone Species -- 5 Introductions and Re-Introductions of Animals -- 6 Animals in Landscape Management and Nature Conservation -- 7 Potential Effects of Climate Change on Animal-Habitat Interactions -- 8 Epilogue -- 9 References -- 10 Index.
Sommario/riassunto	In its first English-language edition, this book introduces the many-

faceted interactions of animal populations with their habitats. From soil fauna, ants and termites to small and large herbivores, burrowing mammals and birds, the author presents a comprehensive analysis of animals and ecosystems that is as broad and varied as all nature. Chapter 2 addresses the functional role of animals in landscape ecosystems, emphasizing fluxes of energy and matter within and between ecosystems, and the effects of animals on qualitative and structural habitat change. Discussion includes chapters on the role of animal population density and the impacts of native herbivores on vegetation and habitats from the tropics to the polar regions. Cyclic mass outbreaks of species such as the larch bud moth in Switzerland, the mountain pine beetle and the African red-billed weaver bird are described and analyzed. Other chapters discuss Zoochory – the dispersal of seeds by ants, mammals and birds – and the influence of burrowing animals on soil development and geomorphology. Consideration extends to the impact of feral domestic animals. Chapter 5 focuses on problems resulting from introduction of alien animals and from re-introduction of animal species to their original habitats, discusses the effects on ecosystems of burrowing, digging and trampling by animals. The author also addresses keystone species such as kangaroo rats, termites and beavers. Chapter 6 addresses the role of animals in landscape management and nature conservation, with chapters on the impact of newcomer species such as animals introduced into Australia, New Zealand and Europe, and the consequences of reintroduction of species to original habitat. It also discusses the carrying capacity of natural habitat, public attitudes toward conservation and more. The final section ponders the effects of climate on interactions between animals and their habitats.
