Sommario/riassunto

This book constitutes the refereed proceedings of the 14th  
International Conference on Flexible Query Answering Systems, FQAS  
2021, held virtually and in Bratislava, Slovakia, in September 2021. The  
16 full papers and 1 perspective papers presented were carefully  
reviewed and selected from 17 submissions. They are organized in the  
following topical sections: model-based flexible query answering  
approaches and data-driven approaches.
