| Sommario/riassunto | Innovation in all its forms, particularly technological innovation, has become a crucial driver of growth, enhancing competitiveness and increasing social well-being in all economies of the world. In a broad and diversified sense, innovation comprises not only the creation of |

new technology, but even more important, it includes the diffusion and use of products, processes, and practices that are new in a given country context. Inspired by the experiences of both industrial and developing countries, this book focuses on the needs and issues of the latter. Aiming at creating a climate in which i
