Nota di contenuto	Chapter 1. Introduction -- Chapter 2. Mining in a cultural context -- Chapter 3. British attitudes to mining before 1904 -- Chapter 4. Mine warfare in the Russo-Japanese War: the Royal Navy perspective -- Chapter 5. The Russo-Japanese War: outrage and response -- Chapter 6. Mining and international law: Britain and the Hague Conference -- Chapter 7. The strategic shift: the origins of British mine warfare -- Chapter 8. Development and institutionalisation: offensive mining 1906-09 -- Chapter 9. Strategic flux and technical failure -- Chapter 10. The test of conflict -- Chapter 11. War, law and diplomacy -- Chapter 12. Conclusion -- Archival Sources -- Index. .
Sommario/riassunto	This book examines Britain's complex relationship with the mine in the

years 1900-1915. The development of mine warfare represented a unique mix of challenges and opportunities for Britain in the years before the First World War. The mine represented the antithesis of British maritime culture in material form, and attempts were made to limit its use under international law. At the same time, mine warfare offered the Royal Navy a solution to its most difficult strategic problem. Richard Dunley explores the contested position occupied by the mine in the attitudes of British policy makers, and in doing so sheds new light on the overlapping worlds of culture, strategy and international law. .

4. Record Nr.	UNINA9910964236103321

Sommario/riassunto

This book provides a readable overview, presenting and relating a range of understandings and characteristics of complexity and complex systems as they are relevant to planning. It recognizes multiple, relational approaches of dynamic complexity which enhance understandings of, and facilitate working with, contingencies of place, time and participants' behaviours.
