Sommario/riassunto

What was the relationship between Jonathan Swift, author of Gullivers's Travels, and his own experience of contemporary Anglo-Irish travel? This new investigation shows how his family history, his politics, his writing life and also his mysterious relationship with two women were both predetermined by and enabled by geography. The Irish Sea made Swift into a restless and necessary traveller capable of living in the space between an imperial England and a colonised Ireland but never fully at home in any one place.
