Sommario/riassunto

This study, the first of its kind in English, presents an overview of Slovak intellectual history in the 19th century, including the debates surrounding the memorandum of 1861, the political stagnation of the 1880s, characterized by an increasingly Russophile orientation, and, finally, Czechoslovakism as the way to common independence with the Czechs. Sommario/riassunto

The phenomenal success of the East Asian Newly Industrializing Economies (NIEs) of Korea, Taiwan, Hong Kong, and Singapore is now well-known and documented. Their success has been discussed to such an extent that it has become entrenched as part of the folklore of development economics. The Newly Industrializing Economies of East Asia takes a fresh look at the relevant literature and sifts the rhetoric from the reality. In the course of surveying the vast range of writing two competing paradigms become clear: the neo-classical approach which interprets the East Asian economic mir
