Sommario/riassunto	Global Terrorism and New Media carefully examines the content of terrorist websites and extremist television programming to provide a comprehensive look at how terrorist groups use new media today. Based partly on a content analysis of discussion boards and forums, the authors share their findings on how terrorism 1.0 is migrating to 2.0 where the interactive nature of new media is used to build virtual organization and community. Although the creative use of social networking tools such as Facebook may advance the reach of terrorist
