Sommario/riassunto

Unique insights into how the mind of an investor operates and how developing emotional awareness leads to long-term success Inside the Investor's Brain provides readers with specific techniques for understanding their financial psychology, so that they can improve their own performance and learn how to outsmart other investors. Chapter by chapter, author Richard Peterson addresses various mental traps and how they play a role in investing. Through examples, such as a gambling experiment with playing cards, the author shows readers how being aware of the subconscious can separate the s
