Sommario/riassunto	This clinician's manual and workbook were developed to provide alternatives in the efforts to reduce the national epidemic of spouse/partner maltreatment. Geffner and Mantooth describe a model incorporating several theories and approaches of psychotherapy, while focusing on abuse as a primary issue. The program and techniques have been used and improved for more than 15 years in programs across the country. The clinician will receive a comprehensive intervention program that includes 26 weekly sessions that address how to initiate the foundations for a therapeutic relationship; communicate and
