Sommario/riassunto

It isn't easy being eight years old and having an older brother whom other children often misunderstand. They don't realize that when he doesn't laugh at their jokes it's because he doesn't understand them. They don't know that when he doesn't speak to them or look at them it's because he doesn't know what to say or how to make eye contact. They don't realize that he behaves this way because he has something called Asperger's Syndrome. Sam knows that his brother Eric is different from him because his brain works differently. So, when the other children bully Eric, it makes Sam feel protective
