

1. Record Nr.	UNINA990006124670403321
Autore	Calogero, Guido <1904-1986>
Titolo	Filosofia del dialogo / Guido Calogero
Pubbl/distr/stampa	Milano : Edizioni di Comunita', 1977
Edizione	[3. ed. -]
Descrizione fisica	408 p. ; 21 cm
Collana	Saggi di cultura contemporanea ; 14
Disciplina	195
Locazione	FGBC
Collocazione	COLLEZ. 208 (14)
Lingua di pubblicazione	Non definito
Formato	Materiale a stampa
Livello bibliografico	Monografia
2. Record Nr.	UNINA9910574856003321
Titolo	Modeling, Simulation and Optimization in the Health- and Energy-Sector / edited by René Pinnau, Nicolas R. Gauger, Axel Klar
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
ISBN	3-030-99983-1
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (153 pages)
Collana	ICIAM 2019 SEMA SIMAI Springer Series, , 2662-7191 ; ; 14
Disciplina	511.8
	362.1068
Soggetti	Mathematics Mathematics - Data processing Mathematical analysis Mathematical optimization Medical sciences Applications of Mathematics Computational Mathematics and Numerical Analysis Analysis Optimization Health Sciences

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.

Sommario/riassunto	<p>This book presents recent research work that is focused on mathematical solution strategies in the important areas of "Prognostic MR Thermometry for Thermal Ablation of Liver Tumours" and "Energy-efficient High Temperature Processes via Shape Optimization". It is addressed to people who are interested in modern mathematical solutions for real-life applications. In particular, mathematical modelling, simulation and optimization are currently successfully used in various fields of application, such as the energy or health sector. Here, mathematics is often the driving force for new innovations and is most relevant for the success of many interdisciplinary projects. The presented chapters demonstrate the power of this emerging research field and show how society can benefit from applied mathematics.</p>

Nota di contenuto	Chapter 1 Millennials versus Gen Z -- Chapter 2 Shedding Light on the Main Drivers of Romanians' Migration in European Context -- Chapter 3 Exploring Nursing Conflict -- Chapter 4 Indicators System for Quality Assurance in Higher Education within the Economic Field -- Chapter 5 Is the Employees' Performance Appraisal Process Different in Large Romanian Companies? -- Chapter 6 Ethical Behavior in Healthcare Organizations -- Chapter 7 Exploring the Identity of Family Businesses and its Role in Stakeholder Relations -- Chapter 8 FDI Motivations in CEE Countries -- Chapter 9 Customer Focus in European Higher Education Systems -- Chapter 10 Consumer Generations Oriented Omnichannel Retail -- Chapter 11 New Perspectives in Performance

Management -- Chapter 12 The Importance and Realities of Entrepreneurship, Ethical Business Education in Romania.

Sommario/riassunto

This proceedings volume examines the impact of ethics on business and entrepreneurship predominantly from the Romanian perspective. Featuring selected contributions from the 2018 Griffiths School of Management Annual Conference (GMSAC) on Business, Entrepreneurship and Ethics, this book investigates the impact of different social phenomena have upon the understanding and applicability of entrepreneurship and ethics, providing lessons for emerging economies. In emerging economies, entrepreneurship is often times associated with a negative image and entrepreneurs are seen in an unfavorable light. This is due in part to the fact that from a superficial perspective, entrepreneurial behavior does not always amalgamate well with ethical behavior. Entrepreneurship is often perceived as "success at all costs" with little regard to the interest of stakeholder and, sometimes, even the law. On the other hand, ethics are often viewed as metaphysical, having little to do with business, organizational and financial success. In actuality, ethical decisions are a significant part of an organization and ethical behaviors impact organizational culture. Beyond the moral aspects associated with business ethics, companies that practice ethical demeanor are more profitable because investors, employees and consumers seek out companies that engage in fair practices. Featuring contributions on topics such as medical ethics, business education, consumer behavior and governance, this book provides invaluable research and tools for students, professors, practitioners and policy makers in the fields of business, management, public administration and sociology.
