Sommario/riassunto

As novel, complex social problems increase, especially those involving vulnerable people who reside in challenging places, the limitations of conventional research methods implemented by just one or two investigators become apparent. Research and development alternatives are needed, particularly methods that engage teams of researchers in real world problem solving while simultaneously generating practice- and policy-relevant knowledge. Research methods that effectively tap the expertise of everyday people, especially those impacted by these targeted social problems, are a special priority bec
