1. Record Nr. UNINA990006366660403321

Autore	Bocquet, Claude
Titolo	De l'opposabilitè aux tiers comme caracteristique du droit reel : essai d'epistemologie juridique sur la base des droits allemand, francais et suisse / CLAUDE BOCQUET
Pubbl/distr/stampa	Geneve : avenir, 1978
Descrizione fisica	313 p. ; 23 cm
Collana	Universite de Geneve : faculte de droit : these ; 637
Disciplina	346.02
Locazione	FGBC
Collocazione	DISSERT. 4 (637)
Lingua di pubblicazione	Non definito
Formato	Materiale a stampa
Livello bibliografico	Monografia

2.

Record Nr.	UNINA9910376077103321
Autore	Boukerche A
Titolo	Distributed Simulation and Real-Time Applications
Pubbl/distr/stampa	[Place of publication not identified], : IEEE Computer Society Press, 2012
Collana	ACM Conferences
Altri autori (Persone)	BoukercheAzzedine
Disciplina	003/.3
Soggetti	Information Technology - Computer Science (Hardware & Networks) Conference papers and proceedings.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph

3. Record Nr. UNINA9910968269903321

Autore	Mueller John <1958->
Titolo	Windows command-line administration instant reference / / John Paul Mueller
Pubbl/distr/stampa	Indianapolis, Ind., : Sybex, 2010
ISBN	1-282-81719-1 9786612817199 0-470-93107-8
Edizione	[1st edition]
Descrizione fisica	1 online resource (578 p.)
Disciplina	005.4/46
Soggetti	Command languages (Computer science) Operating systems (Computers)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Microsoft Windows Command-Line Administration Instant Reference; Acknowledgments; About the Author; Contents; Introduction; PART I: Command Line Basics; Chapter 1: Configuring the Local Machine; Configure the Command Window; Set the Environment; Perform Common Tasks; Obtain Command Line Help; Chapter 2: Making Remote Connections; Configure the Remote System; Use the Remote Desktop Connection Application; Terminate a Session; Chapter 3: Automating Tasks; View and Manage Tasks Using Scheduled Tasks; Manage Tasks Using the SchTasks Command; PART II: Managing Data Chapter 4: Working with File and Directory ObjectsManage Directory Objects; Manage File Objects; Work with File Associations and Types; Make Data Links; Chapter 5: Administering File and Directory Content; Execute Applications Anywhere; Locate Information in Files; Monitor the File System with the FSUtil Command; Display Data Files; Chapter 6: Managing the Hard Drive; Save Hard Drive Space; Manage the Volume; Maintain the Volume; Manage Partitions; Chapter 7: Securing the Data; Protect Data; Change File and Directory Access; Detect Shared Open Files; Take Ownership of Files Part III: Managing the NetworkChapter 8: Managing the Network; Get the Media Access Control Information; Interact with the Network Using the Net Utility; Chapter 9: Working with TCP/IP; Manage the Internet

Protocol; Use Basic Diagnostics; Perform Detailed Network Diagnostics; Get Network Statistics; Manipulate the Network Routing Tables; Chapter 10: Creating System Connections; Perform Remote System Management; Work with Terminal Server; PART IV: Interacting with Active Directory; Chapter 11: Configuring Directory Services; Manage Directory Services Using the WMIC NTDomain Alias
Manage Active Directory with the DSQuery UtilityManage the Active Directory Database; Chapter 12: Working with Directory Objects; Create New Objects; Get Objects; Edit Existing Objects; Move Existing Objects; Delete Existing Objects; PART V: Performing Diagnostics; Chapter 13: Monitoring System Events; Create Simple System Events; Trigger System Events; Manage Event Information; Chapter 14: Monitoring System Performance; Add Performance Counters; Manage Performance Logs and Alerts; Create New Performance Logs from Existing Logs; Remove Performance Counters; Convert Event Trace Logs
PART VI: Performing MaintenanceChapter 15: Performing Basic Maintenance; Configure the Server; Activate Windows; Manage the System Time; Manage the Boot Configuration; Chapter 16: Managing System Users; Audit User Access; Work with Group Policies; Obtain Session Status Information; Get the User's Identity; Chapter 17: Securing the System; Add Virus and External Intrusion Protection; Change the Verifier Settings; Configure Local Security Policies; Work with General Applications; Chapter 18: Interacting with the Registry; Perform Basic Registry Tasks; Use the SCRegEdit Script
Manage the Registry

Sommario/riassunto

The perfect companion to any book on Windows Server 2008 or Windows 7, and the quickest way to access critical information Focusing just on the essentials of command-line interface (CLI), Windows Command-Line Administration Instant Reference easily shows how to quickly perform day-to-day tasks of Windows administration without ever touching the graphical user interface (GUI). Specifically designed for busy administrators, Windows Command-Line Administration Instant Reference replaces many tedious GUI steps with just one command at the command-line, while concise, easy to
