Sommario/riassunto	This book is a timely assessment of 20 years of progress in the field of

housing economics and its application to policy and practice. Two decades on from the publication of Duncan MacLennan's influential *Housing Economics*, 16 leading housing experts - both academics and policy makers from across the world - now honour MacLennan's contributions. The chapters here present a contemporary survey of key issues in housing, from urban housing markets and sub-market modelling, to the economics of social housing, the basis for housing planning, economic analysis of neighbourhoods,
