Sommario/riassunto	SOEHARTO: The Life and Legacy of Indonesia's Second President is the biography of a man who rose from a humble farming background to become one of the most important political figures in Asia. This insightful narrative traces his life from his birth in 1921, through his long tenure as president to his present life, one that is far divorced from his former days of glory. It also explores the controversy surrounding the charitable organizations (or Yayasan) which were established during his time in power and their links to the Indonesian conglomerates and his family. As president, he was often d

Sommario/riassunto	The unrest and violence in Ukraine shocked the world, and the region's long-term future remains troublingly uncertain. Focusing on the difficulty of Kiev's transition from socialism to market democracy, this book demonstrates how Ukraine reached this turbulent point. Roman Adrian Cybriwsky delves deeply into the changing social geography of the city, recent urban development, and critical problems such as official corruption, inequality, sex tourism, and the heedless destruction of the city's historical architecture all difficulties that have contributed incrementally to Ukrainian citizens' anger against their government. This thoroughly revised edition offers the clearest picture we've had yet of what has happened and what is likely still to come in

Ukraine.
