#### Sommario/riassunto

This major new book brings together leading researchers in the field in order to describe and analyse internationally significant theoretical and empirical work on offender supervision, and to address the policy and practice implications of this work within and across jurisdictions.

Arising out of the work of the international Collaboration of Researchers for the Effective Development of Offender Supervision (CREDOS), this book examines questions and issues that have arisen both within effectiveness research, and from research on desistance from offending. The book draws out the lessons tha
