

1. Record Nr.	UNINA990007059910403321
Autore	Callimachus <ca 305-240 a. C.>
Titolo	Aitia Giambi Frammenti elegiaci minori Frammenti di sede incerta / Callimaco ; Traduzione e note di Giovan Battista D'Alessio
Pubbl/distr/stampa	Milano : Rizzoli, 1997
Titolo uniforme	Aetia
ISBN	88-17-17105-0
Edizione	[2. ed.]
Descrizione fisica	366-794 p. ; 18 cm
Collana	Classici della BUR
Disciplina	884
Locazione	DDR
Collocazione	Direz.
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910438000403321
Autore	Sencha A. N (Aleksandr Nikolaevich)
Titolo	Breast ultrasound // Alexander N. Sencha ... [et al.]
Pubbl/distr/stampa	Heidelberg ; ; New York, : Springer, c2013
ISBN	3-642-36502-7
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (266 p.)
Disciplina	610 616.0757 616994 617
Soggetti	Breast - Ultrasonic imaging Breast - Cancer
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Diagnosis of Breast Cancer -- Technique of Breast Ultrasound -- Ultrasound of the Normal Breast -- Ultrasound Diagnosis of Breast Cancer -- Differential Diagnosis of Breast Diseases -- Breast Ultrasound in Children and Adolescents -- Breast Pathology in Men -- Ultrasound Examination of Regional Lymph Nodes -- Ultrasound Examination after Breast Surgery -- Recurrent Breast Cancer -- Ultrasound Imaging in Patients with Breast Implants -- Ultrasound-Guided Breast Intervention -- Conclusion.
Sommario/riassunto	This book is an ideal manual on the use of modern ultrasound in the diagnosis of breast pathology. It provides a comprehensive overview of current ultrasound techniques and explains the advantages and pitfalls of various ultrasound imaging modalities. Detailed attention is devoted to breast carcinoma, with guidance on differential diagnosis and presentation of pre- and postoperative ultrasound appearances. The most important benign breast diseases are also described and illustrated. Age-related features, including those seen in children and adolescents, are carefully analyzed, and an individual chapter is devoted to breast abnormalities in men. All aspects of lymph node appearances are reviewed in detail, with a special focus on the role of ultrasound in the evaluation of lymph node status. Ultrasound-guided

breast interventions and imaging of breast implants are discussed in depth. This up-to-date and richly illustrated book will interest and assist specialists in ultrasound diagnostics, radiologists, oncologists, and surgeons.
