Sommario/riassunto	This edited volume explores the old and new "collective dimensions" of employment relations. It examines specific challenges stemming from new forms of work of the digital and sharing economy, such as measurement, monitoring, assessment, and remuneration of work, the protection of work-life balance, the impact of new technologies on health and safety, the adaptation of occupational skills to new work processes, and the responses to the digital restructuring of undertakings. It addresses a series of questions such as how the representational action of unions and works councils can adapt to the challenges posed by new production systems and whether the legislative framework needs to be reformed to ensure that digital workers enjoy the right to collective representation. This important collection offers readers a renewed theoretical perspective and justification of the role that the dialogue between workers (representatives) and companies could play in an increasingly complex world of work. Tindara Addabbo is Full Professor in Economic Policy in the Marco Biagi Department of Economics at the University of Modena and Reggio Emilia, Italy and member of the Scientific Committee of the Marco Biagi Foundation. Edoardo Ales is Full Professor of Labour Law at the Parthenope University of Naples, Italy and member of the Scientific Committee of the Marco Biagi Foundation. Ylenia Curzi is Associate Professor of Organisation and Human Resource Management in the Marco Biagi Department of Economics at the University of Modena and Reggio Emilia, Italy and member of the Scientific Committee of the Marco Biagi Foundation. Tommaso Fabbri is Full Professor of Organisation and Human Resource Management and Dean of the Marco Biagi Department of Economics at the University of Modena and Reggio Emilia, Italy and member of the Scientific Committee of the Marco Biagi Foundation.
