

1. Record Nr.	UNINA9910455116803321
Autore	Xu Guoqi
Titolo	Olympic dreams [[electronic resource]] : China and sports, 1895-2008 // Xu Guoqi
Pubbl/distr/stampa	Cambridge, Mass., : Harvard University Press, 2008
ISBN	0-674-04542-4
Descrizione fisica	1 online resource (392 p.)
Disciplina	796.0951
Soggetti	Sports - China - History Sports and state - China Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [325]-353) and index.
Nota di contenuto	Frontmatter -- Contents -- Foreword -- Note on Romanization -- Introduction -- 1 Strengthening the Nation with Warlike Spirit -- 2 Reimagining China through International Sports -- 3 Modern Sports and Nationalism in China -- 4 The Two-China Question -- 5 The Sport of Ping-Pong Diplomacy -- 6 The Montreal Games -- 7 China Awakens -- 8 Beijing 2008 -- Conclusion -- Notes -- Selected Glossary -- Selected Bibliography -- Acknowledgments -- Illustration Credits -- Index
Sommario/riassunto	Already the world has seen the political, economic, and cultural significance of hosting the 2008 Olympics in Beijing-in policies instituted and altered, positions softened, projects undertaken. But will the Olympics make a lasting difference? This book approaches questions about the nature and future of China through the lens of sports-particularly as sports finds its utmost international expression in the Olympics.

2. Record Nr.	UNINA9910437865703321
Autore	Longueville Mark de
Titolo	A Course in Topological Combinatorics / / by Mark de Longueville
Pubbl/distr/stampa	New York, NY : , : Springer New York : , : Imprint : Springer, , 2013
ISBN	1-4419-7910-7
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (244 p.)
Collana	Universitext, , 0172-5939
Disciplina	514.2
Soggetti	Combinatorial analysis Convex geometry Discrete geometry Graph theory Game theory Algorithms Combinatorics Convex and Discrete Geometry Graph Theory Game Theory, Economics, Social and Behav. Sciences Mathematics of Algorithmic Complexity

Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface -- List of Symbols and Typical Notation -- 1 Fair-Division Problems -- 2 Graph-Coloring Problems -- 3 Evasiveness of Graph Properties -- 4 Embedding and Mapping Problems -- A Basic Concepts from Graph Theory -- B Crash Course in Topology -- C Partially Ordered Sets, Order Complexes, and Their Topology -- D Groups and Group Actions -- E Some Results and Applications from Smith Theory -- References -- Index.
Sommario/riassunto	A Course in Topological Combinatorics is the first undergraduate textbook on the field of topological combinatorics, a subject that has become an active and innovative research area in mathematics over the last thirty years with growing applications in math, computer science, and other applied areas. Topological combinatorics is concerned with solutions to combinatorial problems by applying topological tools. In

most cases these solutions are very elegant and the connection between combinatorics and topology often arises as an unexpected surprise. The textbook covers topics such as fair division, graph coloring problems, evasiveness of graph properties, and embedding problems from discrete geometry. The text contains a large number of figures that support the understanding of concepts and proofs. In many cases several alternative proofs for the same result are given, and each chapter ends with a series of exercises. The extensive appendix makes the book completely self-contained. The textbook is well suited for advanced undergraduate or beginning graduate mathematics students. Previous knowledge in topology or graph theory is helpful but not necessary. The text may be used as a basis for a one- or two-semester course as well as a supplementary text for a topology or combinatorics class.

3. Record Nr.	UNINA990007463220403321
Titolo	Eupolis : la riqualificazione delle città in Europa / a cura di A. Clementi, F. Perego
