

1. Record Nr.	UNINA990007467270403321
Autore	Passeri, Vincenzo
Titolo	Repertorio dei toponimi della provincia di Siena desunti dalla cartografia dell'Istituto Geografico Militare / a curadi Vincenzo Passeri ; introduzione di Bruno Vecchio
Pubbl/distr/stampa	Siena : Amministrazione Provinciale di Siena. Assessorato Istruzione e Cultura, 1983
Descrizione fisica	359 p. : 1 c. ripieg. ; 24 cm
Locazione	ILFGE
Collocazione	A-IT 0022
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
2. Record Nr.	UNINA9910337611503321
Autore	Toniolo Giandomenico
Titolo	Introduction to Frame Analysis : First and Second Order Theories // by Giandomenico Toniolo
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-030-14664-2
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (XIII, 375 p.)
Collana	Springer Tracts in Civil Engineering , , 2366-259X
Disciplina	624.1 624.171
Soggetti	Buildings—Design and construction Building Construction Engineering, Architectural Building materials Quality control Reliability Industrial safety Building Construction and Design Building Materials Quality Control, Reliability, Safety and Risk

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Criteria of Structural Safety -- Force Method -- Displacement Method -- Second Order Analysis.
Sommario/riassunto	This textbook presents the principal methods of stress analysis for the design of frame structures, beginning with a description of the basic criteria for probabilistic safety verification used in modern codes. The Force Method and the Displacement Method are dealt with, together with their applications to more common structural situations. A special chapter is dedicated to the second order analysis required for slender structures and for the elaboration of instability problems. In turn, a thorough set of numerical examples rounds out the text. Given its scope, the book offers an ideal learning resource for students of Civil and Building Engineering and Architecture, and a valuable reference guide for practicing structural design professionals.
