From grammars to usage guides; 4. Conclusion; References; Nineteenth-century English; 1. Introduction; 2. Grammar writing in nineteenth-century England; 3. Schooling in nineteenth-century England; 4. Nineteenth-century language usage; 5. Concluding remarks; Corpora and databases; References; From l'usage to le bon usage and back; 1. Introduction; 1.1 Codification and prescription in seventeenth-century France

1.2 The socio-cultural context

Sommario/riassunto

The nineteenth century has attracted considerable interest in German historical (socio)linguistics over the last twenty-five years, as it is considered to be the century in which the 'roots' of present-day German can be found. A great deal of the research literature has been devoted to the rise of standard German. Little attention has been paid to the relationship between norms and usage. In order to gain an understanding of their complex relationship, this chapter will first look at socio-historical developments and language ideologies which can be seen as crucial for the external language hi
