Desai -- Percutaneous management of intrarenal calculi / Majid Esghi and Michael Degan -- Laparoscopic and open surgical management of urinary calculi / Ahmed Alasker, Reza Ghavamian and Davis Hoenig -- Multimodality therapy : mixing and matching of surgical techniques for the treatment of stone disease / Nir Kleinmann, Kelly A. Healy and Demetrius H. Bagley -- Management of complications associated with various lithotripsy techniques / Angela M. Cottrell and Andrew J. Dickinson.

Sommario/riassunto

Acute urinary stones cause one of the most painful sensations the human body can experience, more painful than childbirth, broken bones, gunshot wounds or burns. Master your patient management with this comprehensive guide to a debilitating medical condition. Urinary Stones: Medical and Surgical Management provides urologists, nephrologists and surgeons with a practical, accessible guide to the diagnosis, treatment and prevention of urinary stone disease. Divided into 2 parts - covering both medical and surgical management - leading experts discuss the key issues and exa
