Note generali	Description based upon print version of record.
Nota di contenuto	Introduction; 1. Quality of Life; 2. Balance of Power; 3. Developed Market Economies; 4. Economic History, 1500-2005; Appendix: Methodology; References
Sommario/riassunto	This statistical annual presents fundamental data in four sections: (1) Quality of Life, (2) Balance of Power, (3) Developed Market Economies since 1960, and (4) Economic History since 1500. It contains data that is generally not available elsewhere. Sections 1 and 2 give statistics for 230 countries. The World Bank and Encyclopedia Britannica provide statistical data for a maximum of about 160 countries. The actual number of countries in World Bank statistical tables is even smaller. The CIA World Factbook gives data for about 230 countries but that data is limited in scope and is imprecise.
