#### Sommario/riassunto

Pediatric Psycho-Oncology is a comprehensive handbook that provides best practice models for the management of psychological, cognitive, and social outcomes of adolescents living with cancer and their families. Chapters cover a wide range of topics including psychological aspects of particular pediatric cancers and their treatments, how to talk to a child and family at critical times during the disease course, genetic testing, individual, family, educational, psychological and psychiatric interventions, and caring for international patients . Each chapter highlights the necessity of embracing
