

1. Record Nr.	UNINA9910555138503321
Autore	De Wilde P (Pieter), <1980->
Titolo	Building performance analysis / / Pieter de Wilde
Pubbl/distr/stampa	Hoboken, NJ : , : Wiley Blackwell, , 2018
ISBN	1-119-34194-9 1-119-34193-0 1-119-34190-6
Edizione	[1st edition]
Descrizione fisica	1 online resource (618 pages)
Soggetti	Edificis - Cppportament Buildings - Performance
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Explores and brings together the existent body of knowledge on building performance analysis Building performance is an important yet surprisingly complex concept. This book presents a comprehensive and systematic overview of the subject. It provides a working definition of building performance, and an in-depth discussion of the role building performance plays throughout the building life cycle. The book also explores the perspectives of various stakeholders, the functions of buildings, performance requirements, performance quantification (both predicted and measured), criteria for success, and the challenges of using performance analysis in practice. Building Performance Analysis starts by introducing the subject of building performance: its key terms, definitions, history, and challenges. It then develops a theoretical foundation for the subject, explores the complexity of performance assessment, and the way that performance analysis impacts on actual buildings. In doing so, it attempts to answer the following questions: What is building performance? How can building performance be measured and analyzed? How does the analysis of building performance guide the improvement of buildings? And what can the building domain learn from the way performance is handled in other disciplines? Assembles the current body of knowledge on

building performance analysis in one unique resource Offers deep insights into the complexity of using building performance analysis throughout the entire building life cycle, including design, operation and management Contributes an emergent theory of building performance and its analysis Building Performance Analysis will appeal to the building science community, both from industry and academia. It specifically targets advanced students in architectural engineering, building services design, building performance simulation and similar fields who hold an interest in ensuring that buildings meet the needs of their stakeholders

2. Record Nr.	UNINA990008474990403321
Autore	Briggs, Asa <1921- >
Titolo	Città vittoriane / Asa Briggs
Pubbl/distr/stampa	Roma, : Editori riuniti, 1990
ISBN	88-359-3366-8
Descrizione fisica	411 p. ; 22 cm
Collana	Gli studi , Storia
Disciplina	307.764 094 1
Locazione	SDI DARST
Collocazione	SDI-KH 676 12.2063
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Traduzione di Pina Sergi
