Sommario/riassunto	This is the only book that will teach system administrators how to configure, deploy, and troubleshoot Symantec Enterprise Edition in an enterprise network. The book will reflect Symantec's philosophy of "Centralized Antivirus Management." For the same reasons that Symantec bundled together these previously separate products, the book will provide system administrators with a holistic approach to defending their networks from malicious viruses. This book will also serve as a Study Guide for those pursuing Symantec Product Specialist Certifications. Configuring Symantec AntiVirus Enterprise Edition

contains step-by-step instructions on how to Design, implement and leverage the Symantec Suite of products in the enterprise. ØFirst book published on market leading product and fast-growing certification. Despite the popularity of Symantec's products and Symantec Product Specialist certifications, there are no other books published or announced. ØLess expensive substitute for costly on-sight training. Symantec offers week-long courses on this same product for approximately \$2,500. This book covers essentially the same content at a fraction of the price, and will be an attractive alternative for network engineers and administrators. ØFree practice exam from solutions@syngress.com. Syngress will offer a free Symantec Product Specialist Certification practice exam from syngress.com. Comparable exams are priced from \$39.95 to \$59.95.

Sommario/riassunto

Grounded in theory, research, and extensive clinical experience, this pragmatic book addresses critical questions of how change occurs in couple and family therapy and how to help clients achieve better results. The authors show that regardless of a clinician's orientation or favored techniques, there are particular therapist attributes, relationship variables, and other factors that make therapy--specifically, therapy with couples and families--effective. The book explains these common factors in depth and provides hands-on guidance for capitalizing on them in clinical practice and train
