Sommario/riassunto	In Against the Gallows, Paul Christian Jones explores the intriguing cooperation of America's writers-including major figures such as Walt Whitman, John Greenleaf Whittier, E. D. E. N. Southworth, and Herman Melville-with reformers, politicians, clergymen, and periodical editors who attempted to end the practice of capital punishment in the United States during the 1840's and 1850's. In an age of passionate reform efforts, the antigallows movement enjoyed broad popularity, waging its campaign in legislatures, pulpits, newspapers, and literary journals.
