1. Record Nr. UNINA990009194450403321

Autore	International Symposium : 2nd : <1971
Titolo	Staphylococci and staphylococcal infections : recent progress : proceedings of the 2nd International Symposium held in Warszawa, Poland, Sept. 13-18, 1971 / editor J. Jeljaszewicz
Pubbl/distr/stampa	Basel [etc.] : Karger, 1973
ISBN	3805516347
Descrizione fisica	VIII, 658 p. : ill. ; 22 cm
Collana	Contributions to microbiology and immunology ; 1
Locazione	DMIGI
Collocazione	IG 17 B 26
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr. UNINA9910953921803321

Autore	Hajos Gyorgy
Titolo	Hungarian problem book III : based on the Eotvos Competition, 1929-1943 / / compiled by G. Hajos, G. Neukomm, and J. Suranyi ; translated and edited by Andy Liu
Pubbl/distr/stampa	Washington, DC, : Mathematical Association of America, c2001
ISBN	0-88385-956-4
Edizione	[1st ed.]
Descrizione fisica	1 online resource (xviii, 142 pages) : digital, PDF file(s)
Collana	Anneli Lax new mathematical library ; ; v. 42
Altri autori (Persone)	NeukommG SuranyiJanos <1918-> LiuA. C. F (Andrew Chiang-Fung)
Disciplina	510/.76
Soggetti	Mathematics Problem solving
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes indexes.
Nota di contenuto	Eotvos mathematics competition problems -- Combinatorics problems -- Number theory problems -- Algebra problems -- Geometry problems, part I -- Geometry problems, part II.
Sommario/riassunto	The Eotvos Mathematics Competition is the oldest high school mathematics competition in the world, with a tradition dating back to 1894. In 1963, the first two of the Hungarian problem books were published in the New Mathematical Library by the MAA. This book is continuation of those volumes, taking the competition up through 1943. In the Hungarian Problem Book III, forty-five problems in all are presented in six chapters. Problems are classified into five groups: combinatorics, number theory, algebra, and geometry (in two parts). Multiple solutions are presented along with background material providing generalizations and remarks about the problems. This book is intended for beginners, although the experienced student will find much here. Beginners are encouraged to work the problems in each section and then to compare their results against the solutions presented in the book. They will find much material in each section to aid them in improving their problem-solving techniques.
