1. Record Nr.	UNINA990009339290403321
Autore	Aldskogius, Håkan
Titolo	Indirect and direct Wallerian degeneration in the intramedullary root fibres of the hypoglossal nerve : an electron microscopical study in the kitten / H. Aldskogius
Pubbl/distr/stampa	Berlin : Springer, 1974
ISBN	3-540-06750-7
Descrizione fisica	78 p. : ill. ; 25 cm
Collana	Advances in anatomy, embryology, and cell biology ; 50.1
Disciplina	574.408
	599.744 28
Locazione	DMVSF
Collocazione	IIIc C 161-50.1
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

Record Nr.	UNINA9910460632303321
Autore	Dao Mai
Titolo	Regional labor market adjustments in the United States / / Mai Dao, Davide Furceri, and Prakash Loungani
Pubbl/distr/stampa	[Washington, District of Columbia] : , : International Monetary Fund, , 2014 ©2014
ISBN	1-4843-1572-3 1-4755-6574-7
Descrizione fisica	1 online resource (52 p.)
Collana	IMF Working Paper ; ; WP/14/211
Disciplina	331.120973
Soggetti	Labor market - United States - Econometric models
	Labor demand - United States - Econometric models
	Labor mobility - United States - Econometric models
	Labor mobility - Economic aspects - United States - Econometric models
	Unemployment - United States - Econometric models
	Regional economics - United States - Econometric models Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	<ul> <li>Cover; Contents; I. Introduction; II. Statistical Properties of Regional Employment; III. Baseline Econometric Approach and Results; IV.</li> <li>Endogeneity of State Labor Demand Shocks; A. Test of OLS Identification Assumption; B. Validation of Results with Migration and Population Data; V. The Evolution of Regional Adjustment; A.</li> <li>Documenting Patterns of Regional Adjustment; B. Regional Adjustment During Recessions and Expansions; C. What Drives the Pattern of Mobility?; Compositional Effects; The Role of Risk Sharing; VI.</li> <li>Concluding Remarks; References; Tables</li> <li>1. Summary Statistics of State-level Data2. Employment Shares by Industry across U.S. States in 2012; 3. Endogeneity and 2SLS: Employment Rate (le) Equation; 4. Endogeneity and 2SLS: Participation</li> </ul>

2.

	Market Shocks using ACS Data; 6. Job-Related Out-migration Rate by State during the Great Recession: percent of working-age labor force overall and percent of unemployed; 7. Job-search Related Interstate Migration Rate of the Labor Force; Figures; 1. Persistence of Employment Growth Rates across U.S. States, 1976-2011 2. Dispersion of Employment Growth Rates across U.S. States, 1976- 20113. Response of State-relative Labor Market Variables: OLS; 4. Distribution of Predicted Employment Growth Based on State-level Industry Mix; 5. 2SLS First Stage Regression, Full Sample and Sub- samples; 6. Response of State-relative Labor Market Variables: OLS vs. IV; 7. Decomposition of a 1 Worker Regional Labor Demand Shock to 3 Adjustment Margins: OLS vs. IV Reduced Form; 8. Response of Ccumulative Net Migration, Using Migration and Population Data Direct Estimates vs. VAR Identifications 9. Response of Net Migration to 1 Percent State-relative Labor demand Shock: Three Sub-samples10 Cross-sectional Correlation between Labor Demand and Net-migration: 2007 vs. 2009; 11. Short-run Response of Net Migration to Labor Demand Shock of 1 Worker: Expanding Window Regressions; 12. Short-run Response of Migration/unemployment/participation to Labor Demand Shock of 1 Worker: Expanding Window Regressions; 13. Interstate Migration Rate: Percent of Working-age Population; 14. Interstate Migration Rate for Job-search: Percent of Working-age Labor Force 15. Response of State-level Relative Labor Market Variables to a 1 Percent Negative Labor Demand Shock: Business Cycle Interaction16. Response of Cumulative Net Migration to a 1 Percent Negative Labor Demand Shock: Business Cycle Interaction; 17. Dynamics of Uninsured Risk: Business Cycle Interaction; 18. Response of Cumulative Net Migration to a 1 Percent Negative Labor Demand Shock: Role of Risk Sharing
Sommario/riassunto	We examine patterns of regional adjustments to shocks in the US during the past four decades.We find that the response of interstate migration to relative labor market conditions hasdecreased, while the role of the unemployment rate as absorber of regional shocks has increased.However, the response of net migration to regional shocks is stronger during aggregate downturnsand increased particularly during the Great Recession. We offer a potential explanation for thecyclical pattern of migration response based on the variation in consumption risk sharing.
