Ecology Triumphant? -- 5. Making Amends with the Past -- 6. Shaping a New Heritage -- 7. Collaborative Conservation -- 8. Toward a New Order -- 9. Keeping Faith with Nature -- Acronyms and Abbreviations -- Notes -- Index
Sommario/riassunto	As the twenty-first century dawns, public land policy is entering a new era. This timely book examines the historical, scientific, political, legal, and institutional developments that are changing management priorities and policies-developments that compel us to view the public lands as an integrated ecological entity and a key biodiversity stronghold. Once the background is set, each chapter opens with a specific natural resource controversy, ranging from the Pacific Northwest's spotted owl imbroglio to the struggle over southern Utah's Colorado Plateau country. Robert Keiter uses these case histories to analyze the ideas, forces, and institutions that are both fomenting and retarding change. Although Congress has the final say in how the public domain is managed, the public land agencies, federal courts,

and western communities are each playing important roles in the transformation to an ecological management regime. At the same time, a newly emergent and homegrown collaborative process movement has given the public land constituencies a greater role in administering these lands. Arguing that we must integrate the new imperatives of ecosystem science with our devolutionary political tendencies, Keiter outlines a coherent new approach to natural resources policy.

3. Record Nr.	UNINA9910704294203321
Autore	Martinek Harold
Titolo	The effects of work-rest, target activity, background noise, and string size on operator interpretation of unattended ground sensor records / / Harold Martinek and Starling Pilette and Billy Biggs
Pubbl/distr/stampa	Alexandria, VA : , : U. S. Army Research Institute for the Behavioral and Social Sciences, , June 1978
Descrizione fisica	1 online resource (7 unnumbered pages, 54 pages) : illustrations
Collana	Technical paper ; ; 300
Soggetti	Military reconnaissance - Remote sensing Work - Psychological aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
