Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Oral Session 1: CAD -- Oral Session 2: Image Processing and Analysis I -- Oral Session 3: Breast Imaging Physics -- Poster Session 1 -- Oral Session 4: Physics Models -- Oral Session 5: Clinical Experiences -- Oral Session 6: Breast Density -- Oral Session 7: Digital Breast Tomosynthesis -- Poster Session 2 -- Oral Session 8: Image Processing and Analysis II -- Oral Session 9: Lesion Detection -- Oral Session 10: Registration.
Sommario/riassunto	This volume of Springer's Lecture Notes in Computer Science series comprises the scientific proceedings of the 10 International Workshop on Digital Mammography (IWDM), which was held June 16–18, 2010 in Girona, Catalonia. The IWDM meeting traditionally brings together a diverse set of researchers (physicists, mathematicians, computer scientists, engineers), clinicians (radiologists, surgeons) and representatives of industry, who are jointly committed to developing technology, not just for its own sake, but to support clinicians in the early detection and subsequent patient management of breast cancer. The IWDM conference series was initiated at a 1993 meeting of the SPIE Medical Imaging Symposium in San Jose, CA, with subsequent meetings hosted every two years by researchers around the world. Former workshops were held in York, England (1994), Chicago, IL USA (1996), Nijmegen, The Netherlands (1998), Toronto, Canada (2000), Bremen, Germany (2002), Durham, NC, USA (2004), Manchester, UK (2006) and Tucson, AZ USA (2008). Each of these scientific events was combined with very successful and focused industrial and research exhibits, which demonstrated the milestones of digital mammography over the years. A total number of 141 paper submissions from 21 countries were received. Each of these four-page abstract submissions was reviewed in a blind process by at least two members of the Scientific Committee, which led to a final selection of 46 oral presentations and 57 posters during the two and one-half days of scientific sessions.
