

1. Record Nr.	UNINA9910130799203321
Titolo	Geochemical perspectives // European Association of Geochemistry
Pubbl/distr/stampa	[Paris], : European Association of Geochemistry, 2012- [Paris] : , : European Association of Geochemistry, , 2012-
ISSN	2224-2759
Descrizione fisica	1 online resource
Disciplina	551.905
Soggetti	Geochemistry Periodicals.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Some volumes also have a distinctive title. Refereed/Peer-reviewed
Sommario/riassunto	Geochemical Perspectives is an internationally peer-reviewed open access journal that publishes invited contributions from leading scientists in the field of geochemistry. Each issue of Geochemical Perspectives presents a single article with an in-depth view on the past, present and future of a field of geochemistry, seen through the eyes of a highly respected member of our community. The articles combine science and history of the field's development and the scientist's opinions about future directions. We expect personal glimpses into the author's scientific life, how ideas were generated, pitfalls and triumphs along the way, and how ideas were adopted to carry our field further. Geochemical Perspectives articles are intended for the entire geochemical community, not for experts. They are not reviews or monographs or text books. They go beyond the current state of the art, providing opinions about future directions and impact in the field.
