

1. Record Nr.	UNINA9910130837403321
Titolo	Proceedings : 2014 Tenth International Conference on Signal-Image Technology and Internet-Based Systems : (SITIS 2014) // IEEE
Pubbl/distr/stampa	Piscataway, NJ : , : IEEE, , 2014
ISBN	1-4799-7978-3
Descrizione fisica	1 online resource (xlvix, 731 pages) : illustrations
Disciplina	621.3
Soggetti	Signal processing Image processing Wireless communication systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Annotation The SITIS conference is dedicated to research on the technologies used to represent, share and process information in various forms, ranging from signal, image, and multimedia data to traditional structured data and semi structured data found in the web SITIS spans two inter related research domains (web and signal image processing) that increasingly play a key role in connecting systems across network centric environments to allow distributed computing and information sharing SITIS aims to provide a forum for high quality presentations on research activities centered on three main tracks 1 Web Computing and Applications (WeCA), 2 Signal & Image Technologies (SIT), an 3 Multimedia Information Retrieval and Application (MIRA).
