

1. Record Nr.	UNINA9910131283603321
Autore	Ramsey J. G. M (James Gettys McGready), <1797-1884.>
Titolo	Dr. J. G. M. Ramsey [[electronic resource]] : autobiography and letters / / edited by William B. Hesseltine with an introduction by Robert Tracy McKenzie
Pubbl/distr/stampa	Newfound Press, 2002 Tennessee : , : Newfound Press, , 2002
ISBN	9781572331730 (paperback)
Descrizione fisica	1 online resource (367 pages) : illustrations
Collana	Appalachian Echoes
Disciplina	973.7/82 B
Soggetti	Autobiographies Tennessee, East History Civil War, 1861-1865 Personal narratives United States History Civil War, 1861-1865 Personal narratives, Confederate Knoxville Region (Tenn.) Biography
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	Written in the 1870s and originally published by the Tennessee Historical Commission in 1954, Ramsey's autobiography focuses mainly on the home front during the war years. Although Ramsey left Knoxville before Union troops arrived, his wife and daughters remained there for some time, reporting to him on life under the occupation. After the war, Ramsey remained largely unreconstructed politically. Still devoted to his state, he continued his work with the East Tennessee Historical Society, which he had founded in 1834, and served as president of the Tennessee Historical Society from 1874 until his death in 1884. The book includes selected letters from both before and after the Civil War. These shed light on several aspects of Tennessee history, including the coming of the railroad (a project in which Ramsey was instrumental), as well as on Ramsey's personal conviction that slavery was a beneficial institution that lay at the heart of the secession crisis.

2. Record Nr.	UNISA996280156203316
Titolo	2016 39th International Spring Seminar on Electronics Technology (ISSE) // Institute of Electrical and Electronics Engineers
Pubbl/distr/stampa	[Piscataway, New Jersey] : , : IEEE, , 2016
ISBN	1-5090-1389-X
Descrizione fisica	1 online resource (534 pages)
Disciplina	621.381
Soggetti	Quantum electronics Analog electronic systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Annotation The main focus of the ISSE is both directed in bringing deeper knowledge and information of electronics technology, and, especially for young researchers, to increase or confirm a motivation for intensifying their engagement in the field of electrical engineering. The conference will be accompanied by an exhibition of commercial industrial exhibitors, which gives a great marketing opportunity to reach a broad segment of professionals in the field of electronics technology. The conference is an effective crucial point for institutions, government officials, pioneering engineers, academics, experienced and young researchers and many other professionals working on relevant fields to discuss the current challenges and to provide up to date knowledge.
