computerized models in different policy formulation venues : the MARKAL energy model / Paul Upham, Peter Taylor, David Christopherson and Will McDowall -- The tools of policy formation : new perspectives and new challenges / Andrew J. Jordan, John R. Turnpenny, and Tim Rayner.

Sommario/riassunto

Policy analysts are accustomed to thinking in terms of tools and instruments. Yet an authoritative examination of the tools which have been developed to formulate new policies is missing. This book is the first of its kind to distinguish the defining characteristics of the main policy formulation tools, and offer a fresh way of understanding how, why and by whom they are selected, as well as the effects they produce in practice.
