

1. Record Nr.	UNINA9910131296903321
Autore	Koepsell David R (David Richard)
Titolo	Who owns you? : science, innovation, and the gene patent wars // David Koepsell ; foreword, Kevin E. Noonan
Pubbl/distr/stampa	Chichester, West Sussex, England : , : Wiley Blackwell, , 2015 ©2015
ISBN	1-118-94849-1 1-118-94848-3
Edizione	[Second edition.]
Descrizione fisica	1 online resource (248 p.)
Collana	Blackwell Public Philosophy
Disciplina	346.0486
Soggetti	Genes - Patents Human genetics - Law and legislation Patents Intellectual property - Moral and ethical aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Individual and collective rights in genomic data : preliminary issues -- Ethics and ontology : a brief discourse on method -- The science : genes -- DNA, species, individuals, and persons -- Legal dimensions in gene ownership -- BRCA 1 and 2 : the myriad case and beyond -- Are genes intellectual property? -- DNA and the commons -- Pragmatic considerations of gene ownership -- Nature, genes and the scientific commons : a social ontology of invention -- So, who owns you? : some conclusions about genes -- Property, and personhood.
Sommario/riassunto	The 2nd Edition of Who Owns You, David Koepsell's widely acclaimed exploration of the philosophical and legal problems of patenting human genes, is updated to reflect the most recent changes to the cultural and legal climate relating to the practice of gene patenting. Lays bare the theoretical assumptions that underpin the injustice of patents on unmodified genes Makes a unique argument for a commons-by-necessity, explaining how parts of the universe are simply not susceptible to monopoly claims Represents the only work that attempts to first define the nature of the genetic objects involved
