Sommario/riassunto

This special issue of the Journal of Prisoners on Prisons, titled "Dialogue on Canada's Federal Penitentiary System and the Need for Change", features dozens of contributions written by criminalized men and women currently incarcerated in Correctional Service Canada (CSC) institutions. The writings document the counterproductive changes to federal imprisonment made by the previous federal government. These incarcerated writers seek to contribute to the reflections of Justice Canada as it conducts a review of the penal system and to the Standing Senate Committee on Human Rights as it engages in a study about the treatment of prisoners in CSC penitentiaries. Individual prisoners and Inmate Committees from CSC institutions in the Atlantic, Quebec, Ontario, Prairie and Pacific regions who participated in this dialogue collectively express hope that the Government of Canada will move away from the punitive laws, policies, and practices. To this end, the issue includes several recommendations to be enacted in the short-term to improve the lives of those who are imprisoned and who work in federal penitentiaries while also benefitting Canadian society by contributing to public safety.

Sommario/riassunto	<p>Cet ouvrage éclaire d'un jour nouveau la spécificité du royaume de Valence dans l'Espagne des Habsbourgs du début du règne de Philippe II aux Cortès de 1626. Après avoir brossé le panorama des institutions valenciennes, Conseil d'Aragon, Audience, vice-roi, gouverneurs, bailes généraux, maestre racional, l'auteur étudie les carrières de l'ensemble des officiers et des agents ayant exercé leurs fonctions dans cet appareil. Il rompt ainsi avec une tradition prosopographique qui consiste à séparer les individus d'un même corps ou d'un même groupe professionnel. Cette approche novatrice permet de procéder à une analyse comparative des modalités des carrières des officiers du royaume de Valence. En outre, l'étude des liens de parenté de ces officiers royaux met en évidence les différentes modalités d'insertion dans des réseaux de solidarité qui dépassent le cadre institutionnel valencien. Cette étude, qui ouvre des voies méthodologiques nouvelles, constitue une référence indispensable pour la nouvelle historiographie du pouvoir politique dans l'Espagne d'Ancien régime.</p>
