Descrizione fisica	1 online resource (264 pages) : digital, PDF file(s)
Soggetti	Latin America Regions & Countries - Americas History & Archaeology Brazil Race relations
Lingua di pubblicazione	Portoghese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The book discusses public policies in the area of culture, in the period from the 60s to the 90s, demonstrating how Afro-Brazilian symbols were being re-signified, from the establishment of new demands, either by institutional politics or by black movements. This is a pioneering study, especially when analysing the dynamics of Brazilian society and the changes in the adoption of symbols of African origin by different social actors.
