

1. Record Nr.	UNINA9910131484903321
Autore	Papusha Alexander N.
Titolo	Beam theory for subsea pipelines : analysis and practical applications / / Alexander N. Papusha
Pubbl/distr/stampa	Hoboken, New Jersey : , : Scrivener Publishing : , : Wiley, , 2015 ©2015
ISBN	1-119-11766-6 1-119-11767-4 1-119-11768-2
Descrizione fisica	1 online resource (310 p.)
Disciplina	621.8672
Soggetti	Underwater pipelines - Design and construction Girders - Mathematical models
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Euler's beam approach : linear theory of beam bending -- Beam in classical evaluations -- New method for solving beam static equations -- Beam installed at the elastic foundation : rectangular load symbolic evaluations -- Fixed beam on elastic bed : symbolic solutions for point force -- Linear quadratic control -- Subsea pipeline : installation and operation stages -- Historical view : arctic regions -- Subsea pipeline in arctic region.
