

1. Record Nr.	UNINA9910131498903321
Titolo	Agricultural and food electroanalysis / / edited by Alberto Escarpa, Maria Cristina Gonzalez, Miguel Angel Lopez
Pubbl/distr/stampa	Chichester, UK : , : John Wiley & Sons, , 2015
ISBN	1-118-68408-7 1-118-68403-6 1-118-68296-3
Descrizione fisica	1 online resource (514 p.)
Disciplina	664/.07
Soggetti	Food - Analysis Electrochemical analysis Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Electroanalysis and food analysis / Paloma Yanez-Sedeno and Jose M. Pingarron -- Voltammetric techniques / Sandra Mendoza, Erika Bustos, Juan Manriquez, Luis A. Godinez -- Flow injection analysis with electrochemical detection / Fabiana Silva Felix and Lucio Angnes -- Electrochemical detection in hplc techniques / Manuel Chicharro Santamaria, Monica Moreno Barambio and Alberto Sanchez Arribas -- Application of capillary electrophoresis with electrochemical detection in food and agricultural analysis / Gang Chen -- Microelectrode designs / Jonathan P. Metters and Craig E. Banks -- Potentiometric sensors / Dr. Geza Nagy and Dr. Livia Nagy -- Electrochemical enzyme biosensors / Ilaria Palchetti & Marco Mascini -- Food electrochemical immunosensors / M. Teresa Fernandez-Abedul, M. Begona Gonzalez-Garcia, Agustin Costa-Garcia -- Electrochemical genosensors / Briza Perez-Lopez and Arben Merkoci -- Electrochemical biosensors based on nanomaterials / Joseph Wang -- Electrochemical sensing on microfluidic chips for food analysis / Alberto Escarpa, Maria Cristina Gonzalez y Miguel A. Lopez -- Nanoelectrochemistry applications based on electrospinning / Matteo Scampicchio, Stella M. Cosio, Solomon Lemma Mengistu, Saverio Mannino -- Electrochemical

impedance spectroscopy -- Electroanalysis in food process control / M.
Stella Cosio, Simona Benedetti, Matteo Scampicchio, Saverio Mannino
-- Instrumental aspects of food analysis by electrochemical methods /
Wendell K. T. Coltro, Maria F. Mora and Carlos D. Garcia.
