Sommario/riassunto

"There is nothing quite like this book in the contemporary literature. It fills a salient vacuum and would make a fine contribution to a number of debates." - Philip Pettit, Professor of Social and Political Theory, Australian National University, Canberra. "The book offers high-level philosophical analysis of a topical issue, that of nationalism. The author takes a partisan, cosmopolitan position towards his subject. His main aim is to show that cultural isolationism, hostility towards the neighbours etc.... Are logical consequences of nationalism. " - János Kis, Professor of Political Philosophy, Central European University
