Disciplina	303.48330981
Soggetti	Information Technology Information technology Social participation Electrical & Computer Engineering Engineering & Applied Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	The topic of this book, the digital divide, refers to the unequal distribution of resources associated with information and communication technology between countries and within societies. We will explore how one factor, in this case information technology, can potentially support contradictory tendencies: towards greater freedom and social participation and to deeper social inequality and new forms of concentration of power --excerpt taken from the book's Introduction.
