

1. Record Nr.	UNINA9910132280203321
Titolo	2014 International Symposium on Fundamentals of Electrical Engineering (ISFEE) // Institute of Electrical and Electronics Engineers Staff
Pubbl/distr/stampa	Piscataway, NJ : , : IEEE, , 2014
ISBN	1-4799-6821-8
Descrizione fisica	1 online resource
Disciplina	621.3
Soggetti	Electrical engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Annotation To bring together researchers and faculty members interested in Circuit theory, Electromagnetic field theory, Circuit analysis and synthesis, Electromagnetic field analysis, Circuit design, Inverse problems, Technical magnetism, Coupled problems, Electrical machines and drives, Electromagnetic compatibility, Sensors and transducers, Power electronics, Power engineering, Bioengineering.
