

1. Record Nr.	UNINA9910132316303321
Autore	Yevick David
Titolo	Fundamental math and physics for scientists and engineers // David Yevick, Hanna Yevick
Pubbl/distr/stampa	Hoboken, New Jersey : , : John Wiley & Sons, Inc., , [2015] ©2015
ISBN	1-78684-210-6 1-118-97979-6 1-118-97980-X 1-118-98559-1
Descrizione fisica	1 online resource (464 pages) : illustrations
Disciplina	510
Soggetti	Mathematics Physics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Published simultaneously in Canada"--Title page verso. Includes index.
Nota di contenuto	Problem solving -- Scientific programming -- Elementary mathematics -- Vectors and matrices -- Calculus of a single variable -- Calculus of several variables -- Calculus of vector functions -- Probability theory and statistics -- Complex analysis -- Differential equations -- Transform theory -- Partial differential equations and special functions -- Integral equations and the calculus of variations -- Particle mechanics -- Fluid mechanics -- Special relativity -- Electromagnetism -- Wave motion -- Quantum mechanics -- Atomic physics -- Nuclear and particle physics -- Thermodynamics and statistical mechanics -- Condensed matter physics -- Laboratory methods.
